

LZ Technology (LZT) Achieves Select Certification from Cisco {USA}

Houston, Texas – January 28, 2010 – LZ Technology announced today it has achieved Select Certification from Cisco®. The Select Certification recognizes Cisco resale channel partners whose primary focus is on the small and medium-sized business (SMB) market with fewer than 250 employees.

By partnering with Cisco, LZ Technology can provide their customers with proven, reliable networking and communications technology that their business can count on anytime, anywhere: thus; allowing them to focus on their core business requirements.

“The Cisco Select Certification was created in response to customer demand for channel partners to be capable of designing and implementing SMB-specific Cisco solutions,” said Surinder Brar, senior director of worldwide channels at Cisco.

“With the Select Certification, LZ Technology has made an investment in obtaining the training, skills and knowledge necessary to play a pivotal role in meeting this increasing demand.”

To earn Select Certification, LZ Technology fulfilled the training and exam requirements for the SMB Specialization. LZ Technology also met the personnel, training, and post-sales support requirements set forth by Cisco.

The Cisco Resale Channel Program provides partners with the training required to build sales, technical and Cisco Lifecycle Services skills. Cisco resale partner certifications—Select, Premier, Silver and Gold—represent an increasing breadth of skills across key technologies and a partner’s ability to deliver integrated networking solutions. Cisco resale partner specializations—Entry, Express, Advanced and Master—reflect an increasing depth of sales, technical and service expertise in particular technologies.

About LZ Technology
